Technical Comprehension Test Assessment Report

Introduction to this report

The TCT is a measure of the ability to understand basic principles of levers, electrical circuits, volumes etc.

This ability is central to most technical, process worker and apprentice roles at a non-managerial level.

This report highlights:

- The speed at which the candidate worked - the number of questions they attempted.
- How accurate they were in their answers – the number of correct answers.
- Their graded performance – i.e. poor, below average, average, above average, or outstanding by comparison with other test-takers.
- Their performance by comparison with other test takers on a 10-point scale.
- Their performance as a percentile score - the percentage of the norm/comparison group their score was as good as or better than. For example, a score at the 75th percentile means they have done as well as or better than 75% of the comparison group. This would be graded as “**above average**”.
- Note: assessors should use the data in this report alongside other information about the candidate, for example personality data such as the Personality and Motivation Profiler (PMP) or the Work Personality Profiler (WPP) as well as biographical and interview data.

The scores which are described in this report are based on comparisons of results with a specific comparison group of technician and apprentice roles (NOT the general population).

Technical Comprehension Test Assessment Report

Test Results for Mr Ray Sample

Mr Sample worked extremely quickly on this test.

His efforts were somewhat inaccurate for the items attempted.

His final score was POOR by comparison with other candidates

Mr Sample is relatively weak in the area of technical comprehension. A role that required high levels of technical ability might not suit him at this stage without a fair degree of further development.

Technical Details

Questions answered correctly:

1	2	3	4	5	6	7	8	9	10	11	12
13	14	15	16	17	18	19	20	21	22	23	24

Number of questions attempted:

1	2	3	4	5	6	7	8	9	10	11	12
13	14	15	16	17	18	19	20	21	22	23	24

Standard score (1-10) and percentage of the comparison group they did as well as or better than:

1	2	3	4	5	6	7	8	9	10
>1%	>5%	>10%	>25%	>40%	>60%	>75%	>90%	>95%	>99%
Poor			Below average	Average		Above average	Outstanding
